Expertise

Python

Godot/Unity

HTML/CSS

SQL

Language

English B2

Turkish Native

Experience

July - August / 2025

Gen Yazılım (feta)

Intern Engineer

We completed a three-week Python course, progressing from beginner to intermediate levels. During this time, we explored algorithm structures and then initiated a backend project using Django. To support this, we utilized SQL databases. All the materials can be found at:

Since 2023

O'Podcast

Editor

I am volunteering with the Okan Podcast community, I do the editing and post-production of podcasts. Through this experience, I have developed skills in teamwork, problem-solving, and communication.

Education

2021 - 2026

Okan Üniversitesi

Computer Engineer

I studied English for one year in preparation, and now I am in my final year of my degree.

My Projects

Please visit atakanonay.com to view my various web, game, and other projects that I have developed.

About Me

I was born in Karşıyaka, İzmir. My father is a soldier in the Turkish army, which led us to move frequently between various cities and locations. Currently, I reside in Istanbul. I've had a passion for computers since I was a child, and I enjoy being creative as well as engaging in communication.
